Professional Summary

Business operations professional experienced in healthcare revenue-cycle operations and business reporting. Skilled in Excel, SQL, Power BI, KPI monitoring, data validation, and issue resolution. Familiar with O2C fundamentals, Accounts Receivable, collections, cash application, and reconciliation concepts. Focused on data accuracy, workflow efficiency, and operational reporting.

Professional Experience

Associate Analyst *Apr 2026 – Present*
R1 RCM *Healthcare Revenue-Cycle Operations*

- Manage assigned account workflows and review complex, high-balance accounts while following process guidelines, quality standards, and turnaround-time targets.
- Examine account information to identify discrepancies, support issue resolution, and escalate exceptions through established procedures.
- Maintain accurate account records and meet operational productivity, quality, and compliance expectations.

Data Analyst Intern *Mar 2026 – Apr 2026*
Leo Sales Corporation *MIS and Business Reporting*

- Analyzed sales and operational data using Excel and SQL to prepare MIS reports and support business reviews.
- Developed Power BI dashboards to monitor sales performance, inventory indicators, trends, and key performance metrics.
- Cleaned and validated datasets and supported reporting automation to improve data consistency and operational monitoring.

Skills and Tools

Business Operations: Account Workflow Management, Issue Resolution, Escalation Handling, SOP Adherence, Data Quality
O2C Process Knowledge: O2C Fundamentals, Accounts Receivable, Invoicing, Collections, Cash Application, Reconciliation Concepts
MIS and Reporting: MIS Reporting, KPI Monitoring, Trend Analysis, Performance Reporting, Dashboard Development
Excel and SQL: PivotTables, XLOOKUP/VLOOKUP, Power Query, PostgreSQL, MySQL, Joins, CTEs, Window Functions, Aggregations
Analytics and Tools: Power BI, DAX, Tableau, Python (Pandas, NumPy), Snowflake, Git, GitHub, Epic, PhareFlow
Professional Skills: Analytical Thinking, Problem-Solving, Attention to Detail, Stakeholder Communication, Team Collaboration

Projects

Revenue and Business Performance Analytics *PostgreSQL, Excel, Power BI*
GitHub Repository

- Analyzed 10K+ transactions using SQL joins, CTEs, and window functions to evaluate revenue, average order value, month-over-month growth, margins, and returns.
- Optimized SQL views and aggregations, improving query performance by 20–25%; built interactive Power BI dashboards that reduced manual reporting by 45%.

Customer Segmentation and Retention Analytics *SQL, Python, Power BI*
GitHub Repository

- Processed 600K+ transactions and analyzed 200K+ customer records using data cleaning, transformation, and validation.
- Applied RFM segmentation and cohort analysis to identify high-value customers, retention patterns, and churn risks; automated reporting pipelines to improve accuracy by 30%.

Education

Bachelor of Computer Applications (BCA) *2022 – 2025*
Teerthanker Mahaveer University, Moradabad **79%**

Certifications

Microsoft Excel with AI Masterclass | Power BI Workshop – DAX, Data Modeling, and KPI Dashboards
